Minimum System Requirements

NOTE

- Note that the system requirements may be slightly different from those described below depending on the particular computer.

- Keep in mind that the software is often updated and the system requirements are subject to change. You can check the latest version information of each program and its system requirements at the following website:

  https://download.yamaha.com

OS	macOS 10.14 / macOS 10.15 / macOS 11 / macOS 12
DAW Application	Cubase 11 series
Others	These system requirements conform to those of the OS and DAW applications.

Before Installing/Uninstalling the Application

Select Apple menu > System Preferences… > Security & Privacy > General tab under the header "Allow applications downloaded from," then set the Gatekeeper's option to "Mac App Store and identified developers."

Note

If you have not changed the default setting of Gatekeeper, the upper operation is not necessary.

Installing the application

1. After the downloaded compressed file is properly extracted, double-click a following file.

    Install YC-3B V1.1.7.pkg

2. Follow the on-screen instructions to install the software.

Uninstalling the application

1. After the downloaded compressed file is properly extracted, double-click a following file.

    Uninstall YC-3B.app

2. Follow the on-screen instructions to uninstall the software.
